

## HOW TO FIND YOUR RING SIZE

**Print this guide. To avoid printing issues, make sure that the page scaling is set to 100% - in the print options window. You can open this box by pressing CTRL + P.**

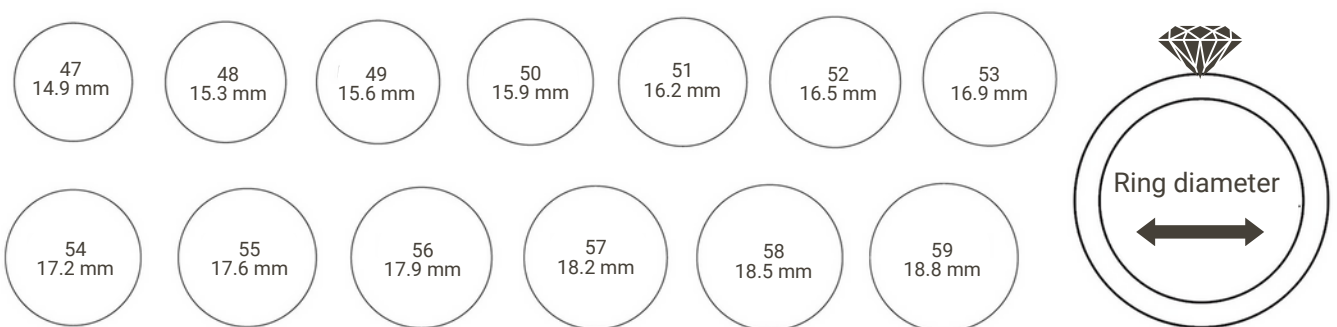

Measure the sizing bar with a ruler; for accuracy, it should be 3 cm / 30 mm.

### How to measure your ring size?

To determine the appropriate ring size, it is recommended to place the inner edge of the ring on the closest size circle. When the two overlap perfectly, you will identify the correct ring size as well as its diameter.

If the ring falls between two sizes, it is always safer to order the larger size to ensure a comfortable fit.

**Attention! Do not measure directly on the screen of your device.**
