

HOW TO CHECK THE LENGTH OF A NECKLACE

Choose a necklace or chain that is similar to the one you want. If you don't have a necklace with a similar appearance or length, you can use a piece of string.

- Place a long piece of string around the back of your neck.
- Join the ends of the string in front of your chest.
- Mark the spot on the string where you want the necklace to fall.

Lay the string flat on a surface and measure the length up to the mark. This measurement should be the appropriate length for the necklace.

If the resulting length is 40 cm, then the suitable size is 40.
